

2022 生醫年會優惠方案： 全商品第二件 8 折只到 6 月底

Hot Sale

Mycoplasma PCR Detection Kit ,100rxns 原價:~~12375~~元,現在特價:**7500** 元

Kit Features: **Cat.No:G238**

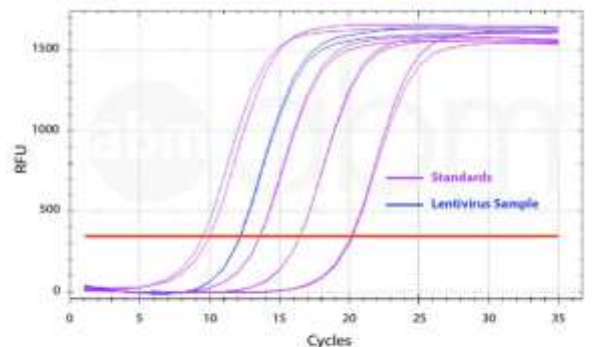

- 不須抽取 DNA: Directly add cell culture supernatants to PCR reaction
- 快速和準確度高: Detect 200+ *Mycoplasma* species in less than 2 hours
- 高靈敏路和高專一性: Demonstrated the highest true positive and lowest false positive rates compared to competing kits
- 操作方便: Includes ready-to-use primer mix and positive control
- 價格便宜 compared to competing kits
- 效果遠高於 Sigma and Lonza's kits

Hot Sale

qPCR Lentivirus Titer Kit 100rxns 原價:~~13125~~元,現在特價:**7900** 元

Kit Features: **Cat.NO:LV900**

- 省時和高準確度: Quick RNA extraction
- 專一性佳: Eliminates non-specific (NTC) signals due to our unique primer design
- **Can be used directly on neat viral particles**
- 降低變異性: Ready-to-use reagent mix
- **RT-qPCR in one step:** More sensitive and accurate than other methods
- **Contains dye comparable to SYBR Green™ and EvaGreen™**

abm's qPCR Lentivirus Titer Kit enables easy visualization of viral titers. A lentivirus sample (blue) was processed following the protocol for the qPCR Lentivirus Titer Kit (Cat. No. LV900) and amplified in a qPCR reaction along with standards included in the kit (purple).

siRNA Lentivectors/ Lentivirus and Oligos	siRNA Adeno-Associated Virus (AAV)	Lentivirus Vector System	Lentivirus Virus System
Premade Adenovirus	3'UTR (Lentivector, virus, stable)	miRNA Adeno-Associated Virus (AAV)	LentimiRa Vector/Virus + AdmiRamiRNA Primers
miRNA Agomirs/Antagomirs	Protein Expression Vector	ORF Vector	Recombinant Protein
Protein Lysate	CRISPR Cas9 activation library	CRISPR Cas9 KO library	Adeno-Associated Virus (AAV)
abmXchange Vectors	Cell culture	Cell immortalization	Biochemicals
Antibodies	Antibiotics	Enzymes	IHC Slides
IPSC and Feeder	PCR,DNA,marker	Growth factor	Drug Discovery stable cell line
Tumor cell	Restriction Enzyme	Primary cell	Viral expression and organelle
Stem cell and iPSC reagents	Proteomic reagent	Cell lysate and RNA	Buffer and solutions
Covid-19 products	Immortalized cell lines	Transfection reagent	2 nd Antibodies
Small molecule	DNA purification	equipment	Custom services
